

BKW band re-saw

The flexible saw with high capacity for maximum use of resources

BKW – for highest capacity

120 m/min feed speed, smallest possible kerf, perfect accuracy, quick settings and safe feed-through for the BKW-single and twin is an unbeatable combination. Our focus on production reliability and service friendly design gives you the best security.

BKW – band re-saw

- Feed speed up to 120 m/min
- Electronic feed
- Casted base and pillars
- Motorised tilt of upper saw wheel
- Fence and centre cut
- Motorised band tensioning
- Height adjustable saw band guides
- Effective band and wheel cleaning
- Single or twin – both with fence side to the left or right

1 Operator panel

All electrical functions on the saw can be set from the stand alone panel, which can be placed according to the layout of the plant. The panel includes a PLC with capability to store 30 pre-programmed dimensions

3 BKW single

Based on your production the BKW comes in both single and twin version. BKW-single can be upgraded to twin version.

2 Frequency controlled feed

6 driven feed rollers with independent pneumatic tensioning system that ensures effective and accurate feed of the wood. The feed rollers are adjustable in the feed direction for the most accurate split. Bawl ripping is available as option.

4 Band guidance

Upper and lower band guides are made of Iso-lite. They are easily replaceable without adjustment. The upper band guide is adjustable to three heights to accommodate for different splitting heights. Automatic band tilting is available as option.

Technical specification

Feed speed	120 m/min
Max distance fixed saw band –fence side	250 mm
Max distance saw band – feed rollers	
Min distance fixed-movable saw band	10 mm
Max cutting height	300 mm
Band wheel diameter	1250 mm
Band wheel width	150 mm
Saw band dimension	7800 x 150 x 1,20 mm
